

HOOVER WANTS LAW REFORMED TO WIN LIBERTY

Says Nation Must Fight Again
To Restore Government
Morale and Freedom.

HITS NEW DEAL POLICIES
Critiques "Framed Propaganda
and Perverted Figures"
of Present Administration.

By The Associated Press
PHILADELPHIA, May 15.—Herbert Hoover's latest assault on the Democratic new deal called for a "realistic, drastic and immediate reform" in order to restore liberty and progress.

Hoover said again for a government founded upon ordered liberty and opportunity that was the American vision. The former president told the Republican women of the Academy of Music last night.

He urged a revival of confidence and courage in the destiny of America, and asked that "real progress" be substituted for "new deal extravaganzas."

Wants Basic Law Observed
Hoover among suggested "specific reforms" Hoover asked that the government "obey the Constitution, change it when necessary. But obey it."

Hoover said "there are standards of intellectual honesty," of "gentleman" and of "financial honor" in government, and he criticized "framed propaganda and perverted figures" by the government.

He said the communications of persons not charged with wrong-doing and devaluation of the dollar.

For immediate action, he also urged:
"This contract of wasteful expenditure should be stopped. The budget must be balanced. The increase in debt must be ended. The tax system should be reestablished. These little purchases of foreign silver should cease. The law authorizing the President to inflate the currency and to gamble in foreign exchange should be repealed. Tinkering with credit inflation must be ended."

Wants Banking Reform
"Genuine banking reform must be achieved. The kind of political system should be driven away. The political system should be reformed for once and for all. The civil service should be restored. Return the administration to the state and local non-partisan committees. Give them such federal subsidy as meets the need of the unemployed. Take the function of politics out of the hands of the politicians. By wise use of tariff protect our farmers from the forces of imports. By wise use of subsidies find employment for our surplus funds in products we can use and can export. Restore foreign trade. Take the hand of honest business. Stop the attempts to suppress free opinion. Give us a government of laws and not of men."

The policies of President Roosevelt are "driving the people" into a "collectivist desert," the former president said.
"And many of his advisers glory in the progress already made," he added, contending that the social security act and other new deal "traps need reexamining, and that 'increased poverty' can result only if the administration's economic policies are maintained."

Departing from his prepared text, Hoover in a discussion of the present relief administration asked, "Can the American people be brought with their own money when they see huge sums being rushed into politically important districts two jumps ahead of an election?"

Liberty On Way
"The night of tyranny," he asserted, "is closing in on the light of American liberty from all parts of the world."
Referring to a recent statement by President Roosevelt, in which the chief executive said "reduction of costs of manufacture does not mean more purchasing power and more goods consumed; it means just the opposite," Hoover stated:

"At least we know now why the new deal has imposed all their different devices of debts, taxes, restriction of production, juggling with currency, and a score of other methods of artificially forcing up costs and prices."
Costs Production Cost
"That is supposed to enable you to live more."
"But how are we to make out an exception if production costs increase?"

M. Harvey Taylor, Republican state chairman, introducing Hoover, urged election of a Republican president next fall "or you may never vote for another president."

Chief McFarland Given Junior C. of C. Plaque for Outstanding Civic Service

CHIEF T. J. MCFARLAND

Fire Department Head
Honored at Annual Ban-
quet of Marion Group.

REVIEW ACTIVITIES
Rev. J. O. Dodd Awarded
Emblem from National
Organization.

Marion paid tribute last night to Fire Chief T. J. McFarland for his outstanding service he has given the community in 1935 and in the previous 44 years he has been a member of the Junior Chamber of Commerce, which was presented a plaque given annually by the Marion Junior Chamber of Commerce to the citizen who has been outstanding in civic affairs.

The presentation was made by Theodore E. Brownlee, a city fireman and member of the Junior Chamber, at a banquet at Hotel Marion. Approximately 80 members of the Junior Chamber, business men and civic leaders were present.

Rev. James O. Dodd, pastor of the Central Christian church, also was honored last night when he was awarded the national Junior Chamber of Commerce distinguished service emblem for his leadership and participation in young men's activities in the community.

Inscription on Plaque
The wooden plaque is decorated with a silver Greek goddess and bears a silver plate with the following inscription:

Presented To
Chief T. J. McFarland
By
Marion, O. Jr. C. of C.
In Appreciation of His Many
Years Of
Meritorious Civic Service

"I never dreamed such an award would come to me," Chief McFarland said in accepting the plaque. It is a genuine pleasure to work in civic activities when we have the backing of representatives of various clubs and organizations in the city, the chief said. He lauded the Junior Chamber of Commerce for its selflessness in the community and its willingness to carry out the jobs which it is called to do. He said he became interested in the organization several years ago and that its members have frequently consulted him on their community activities.

Chief McFarland said he has found men and women in every organization who are willing to get behind a worthy cause. "If I have done anything that is worthy of this award it has been because the men who have worked with me have done their part splendidly," he said, in conclusion.

Only Full Time Chief
Chief McFarland has been a Marion fire fighter slightly less than 45 years. He has been chief of the fire department nearly 33 years of that time. He is the only full-time fire chief Marion has ever had, assuming that position on July 6, 1903. His service to Marion has not been limited to his official position. He has played a prominent part in public affairs throughout his public life.

Chief McFarland is a member of the Elks lodge, the Kiwanis club and advisory board of the Salvation Army. Among the dozens of capacities in which he has served in civic work has been as chairman of the life savings corps of the Red Cross. He also has been active in conducting the community Christmas party given annually for Marion's needy children. He is a member of the state fire chiefs' association and served as president of the organization two years.

COURSE MARKED FOR ANNUAL RELAY RACE

Six Y. M. C. A. Teams Ready
for Dash Between Green
Camp and Marion.

While members of five Y. M. C. A. relay teams made final preparations to compete in the second annual running of the Green Camp-to-Marion relay, tomorrow, officials in charge today were marking the six-mile course. The teams, usually composed of 12 members, will cover the distance in 30 minutes, was the prediction of Donald Cram, director of the race.

The race will begin at 10 a. m. in Green Camp. It was announced that one team, the Falcon Hi-Y squad, would be able to enter only as a six-man team. This would mean that the Falcon runners would cover a one-mile stretch, rather than the usual half-mile distance.

Other squads entered include the Athenian, President and Edison Hi-Y teams. It is expected that representatives of the Four Square and K-Y Senior clubs will also participate.

By The Associated Press
CANTON, O., May 15.—City police and sheriff's deputies today trailed the roads leading out of Canton today for five of seven prisoners who broke out of the Stark county jail last night. Two of the seven were captured after a few hours of freedom.

The seven men, held on charges ranging from auto theft to highway robbery, knocked the bars out of a window to make their escape. Walter Hadley, awaiting trial on a charge of burglary and larceny, was captured by Canton police on a downtown street, Sheriff Joseph Nist said.

Edward Pike, who was charged with highway robbery, was caught by deputies on the Wheeling & Lake Erie railroad tracks on the outskirts of the city. Duplex said he was captured without a struggle.

The five still missing: Cecil Griffith, awaiting trial on charges of burglary and larceny; Leroy Spence, charged with highway robbery; Leonard Snyder, held on grand larceny charges; William King, charged with burglary and larceny; and Ismao Estes, charged with auto-theft.

The escaped prisoners were held in the bull pen of the one wing of the jail building, Sheriff Nist said.

Somehow they managed to slip the pins from the hinges of one of the iron cell doors in the jail. Wrapping one end of the door with blankets, they used it to batter out the bars over a window.

Deputies said the men helped each other to the top of the wall until only one man was left on the ground. The other six then

JAPANESE SEND TROOPS TO PEIPING AND TIENTSIN

Landing of 7,600 Soldiers in North China Believed Encouraged
by Italian Seizure of Ethiopia.

By The Associated Press
TIENTSIN, China, May 15.—The Japanese army landed 7,600 troops from four transports today in a movement described by the Chinese as part of a campaign, encouraged by the Italian seizure of Ethiopia, for ultimate conquest of China.

The troops were destined immediately for strengthening Japanese garrisons in the north China cities of Tientsin and Peiping.

A portion of the reinforcements were immediately to Peiping to strengthen the Japanese garrison in that ancient Chinese capital, raising the number of troops there to 600.

The main body of the reinforcements was ordered to be landed at Tientsin, where the Japanese garrison numbered 1,000 men.

New Deal Fights To Save Ideal of Its Tax Program

Battle in Senate Waxes Hot Over Undistributed Profit Levy
as Against Present Setup.

By The Associated Press
WASHINGTON, May 15.—Administration leaders in the senate have abandoned President Roosevelt's suggestion that corporations be taxed only on their undistributed profits and are battling now to save what they term the philosophy of his revenue program.

The senate finance committee was determined today to retain the present corporate tax structure instead of abolishing it as suggested by Mr. Roosevelt. The President's lieutenants were seeking to add a surtax on undistributed profits and were facing a stiff fight even on this compromise.

Forced to This Bill
One member of the company, a Republican, forecast that the entire administration plan would be discarded, but most Democrats said its essence would be retained in the form of a surtax above the present flat taxes on net income of corporations.

A dozen different plans for raising the \$620,000,000 of permanent revenue asked by President Roosevelt were before the committee today. They were so varied that the leaders were having difficulty rallying a majority around any one compromise.

Chairman Harrison, Democrat of Mississippi, was still hoping for a compromise, but conceded the possibility that the committee might be unable to agree and have to carry the fight to the floor of the senate.

Committee members seemed to agree on only two things after the first executive session in which the merits of the various proposals were discussed. They were that a flat tax of about 15 per cent on all corporate income probably would be approved, and that dividends would be subjected to the normal income tax rate of four per cent.

Similar To Present Tax
The 15 per cent tax would be similar to one now existing, but the dividend levy would be a new departure, and would be in accord with one of Mr. Roosevelt's suggestions. At present dividends are subject to surtaxes, but not to normal income taxes.

The two virtual agreements left

COXEY IN MARION FOR TALK TONIGHT

Farmer - Labor Presidential
Nominee on Tour Seeking
Elector Support.

General Jacob S. Coxey Sr., of Massillon, O., Farmer-Labor party nominee for president, and leader of the famed "Coxey's Army," arrived in Marion today on his tour of Ohio and announced he will speak tonight at 8 in the common plaza courtroom.

He said he is on tour to leave petition blanks in 40 Ohio counties in an effort to get presidential electors pledged to his support on the November election ballot. He said the party also seeks to nominate a slate of candidates for state offices.

General Coxey, candidate for president four years ago on the Farmer-Labor ticket and several times candidate for United States senate, said the party will not attempt to nominate congressional candidates in districts where one of the nominees of the two major parties is pledged to support either the Townsend plan or the program of the National Union for Social Justice.

General Coxey said he is advocating government printing of 50 billions of currency to take the place of bank credit that collapsed in the depression.

CHANGES NEAR IN RELIEF PLAN

Roosevelt To Scale Down
PWA and RA Agencies
Under New Program.

PROFITS TO BE SHIFTED
Municipal Jobs Will Now Come
Under Hopkins' WPA Program of Activities.

By The Associated Press
WASHINGTON, May 15.—President Roosevelt said today that the public works and resettlement administration would be continued on a somewhat smaller scale under the pending \$1,425,000,000 work relief appropriation.

Responding to questions at his press conference, the President said certain municipal projects which have been carried out by Secretary Ickes' PWA in the past would qualify under the new relief bill. Harry L. Hopkins' WPA would furnish 45 per cent of the funds to pay the labor, he said, while the 55 per cent now would come out of PWA's revolving fund.

Still Man Points
The President said Ickes' agency still had quite a large revolving fund available for loans through Reconstruction Corp. sale of municipal facilities, the proceeds of which are turned over to PWA.

The relief fund is in the \$2,384,220,712 deficiency appropriations committee, Ickes was scheduled to testify today but the committee session was postponed until this afternoon.

The committee has before it demands that funds go both to Ickes' public works organization and to Rexford G. Tugwell's resettlement administration.

Avoids Argument
When he was asked at his press conference yesterday whether he would suggest that the senate's earmark funds for his agency, Ickes emphasized that he was not going to enter "any public argument with the President."

Sen. Hayden, Democrat of Arizona, introduced an amendment to increase the deficiency bill by \$100,000,000, which would be turned over to PWA. Ickes said that if his agency were to be given \$100,000,000 it would become unnecessary to carry out a proposed 25 per cent reduction in his administrative staff.

A senate bloc effort to put money for "New Deal" agencies into the deficiency bill, the President's administrator testified yesterday that the PWA would have to close up July 1 unless more money is allocated.

By The Associated Press
WASHINGTON, May 15.—Congress today completed work on the Norris \$410,000,000 rural electrification bill and sent it to President Roosevelt.

Repealing the 1930 act which authorized the construction of a federal power plant in the Tennessee valley, the bill would authorize the construction of 100 new power plants and the purchase of 100,000 acres of land for power projects.

The bill also would authorize the construction of 100 new power plants and the purchase of 100,000 acres of land for power projects.

LABEL WAR DESTRUCTIVE
Urges Department of Peace
With Its Head Member of
President's Cabinet.

By The Associated Press
COLUMBUS, O., May 15.—A declaration that the Methodist Episcopal church is an institution "does not endorse, support, or purpose to participate in any war" went before the general conference today for reconsideration.

Coming as the report on peace of the committee on state of the church, the statement asked that the United States government be petitioned to grant to members of the Methodist Episcopal church who are conscientious objectors in war "the same exemption from military service that has long been granted to members of the Society of Friends and similar religious institutions."

War Labeled Great Sin
"War as we know it now is utterly destructive," the statement said, "it is the greatest social sin of modern times; a denial of the ideals of Christ; a violation of human personality; and a threat to civilization."

It demanded that the government cease supporting all military training in civilian educational institutions, and reiterated the stand of the 1932 general conference that "we are opposed to all military training in high schools and to compulsory military training in colleges and universities."

It asked that the government be required to exempt from military training any student belonging to the Methodist Episcopal church who has conscientious scruples against such training.

Want New Department
Proposing the creation of a department of peace by the United States government, with its head a member of the cabinet, the statement on peace asked that this nation lead other nations in a program for the "eradication of executive armaments."

"We recommend that the federal government assume exclusive responsibility for the manufacture of munitions of all kinds and remove the production of the arms of war from the hands of individuals, groups, or nations," the report said.

Action on the report was expected to be deferred until tomorrow or Monday.

Dr. O. H. Hymus O'Connell, the sixth Methodist leader to step from the presidency of DePauw university at Greencastle, Ind., to a place on the Methodist Episcopal board of bishops sat with the other bishops today.

Four New Bishops
O'Connell, who withdrew his name Tuesday after he was within a handful of votes of election, became the fourth new bishop last night on the 15th ballot, after a new movement was started to elect him.

The scholarly leader of the church demonstrated his strength on the 12th ballot when he received 244 votes to pass Dr. Harry W. McPherson, president of Illinois Wesleyan university at Bloomington, Ill., and Dr. Oscar T. Olson of Cleveland, who withdrew after the vote was announced.

The delegates gave the DePauw president 602 of the 870 votes cast on the 15th ballot. Dr. McPherson received 592. The vote for Olson was 582. The vote for O'Connell was 572.

Everything from Beads To Firearms To Be Found in Y Hobby Displays

Everything from beads to mounted antelope and firearms is to be found in the annual hobby and gun show which is now in progress at the State State street in a room (first north of the Y. M. C. A. entrance).

The show, which is being sponsored by the Y. M. C. A., the Marion Hobby Club, the Marion Gun Club and the public and private schools, has an advantage over last year in that with the facilities of a large room, displays are shown more attractively than in former years.

Boys and girls have brought in to public light their pet hobbies and handicrafts for the education of children who are welcome to view the exhibit free of charge, tonight at 8 and from noon Saturday until 9 Saturday night.

Not only will boys and girls parents and friends be interested in the local displays, but much of interest will be found in the display which has been arranged

of the hobby of E. G. Fuller, chief of the bureau of identification at the state reformatory at Marion. Firearms used in some of the state's sensational murders, and crime instruments made by prisoners in executing escape plans.

EXHIBIT AMPLIFIED
These interesting exhibits are augmented by a "Crime Scene" exhibit arranged by Don D. Gram of the Y. M. C. A. and Marion H. Hinkle of the sheriff's office, showing pictures and accounts of some of the sensational crimes of the state and nation for which the perpetrators have paid with their lives.

The nucleus of this display is Mr. Fuller's hobby collection, and with the additional pictures and stories those in charge of the exhibit believe it is a graphic and timely lesson and warning not only to boys and girls but to adults as well.

The Fuller display includes the famous "Oregon Book," a device for the torture of criminals, a ball

and chain, the hammer used in the Brock murder trial, a club used by a young man to kill his mother-in-law, a tear gas bomb taken from a car, a master key to the reformatory cell block made by one of the inmates, razors used by Negroes in a cutting scrape in which one person was killed, a length of rope said to have been used in the last hanging in Ohio.

A hand-made chain used for carrying wood, wooden pistols, knives made and used by prisoners in escape plots, guns used in numerous slayings and robberies throughout the state, dope bottles which have been found in cells and other gruesome but interesting articles which Mr. Fuller has collected.

Marion merchants are sponsoring the various divisions into which the exhibit has been divided, and will offer grand prizes in their respective divisions. In addition, first, second and third place ribbons will be awarded. The list of winners will be announced either Saturday or early next week.

Other Exhibits
Some of the exhibits to be seen by visitors are scrapbooks, a collection of all sorts of objects, including a collection by Henry Winkler, former Harding high school basketball star, of the various events in which he participated; model planes, model locomotives, batteries of lead soldiers, Keweenaw bars of soap from everywhere, buttons, the story in pictures of the reign of George V of England, bulletins, quilts, the extraordinary fine history collection of Owen Meddler, a Marion school boy, pictures of the Presidents, autographs of famous people, bird houses, bead work, dolls, doll furniture and doll clothing, badges and ribbons, beads of all kinds, fly-tying, a

rolling pin whittled with a jack-knife, paintings, carvings, pen and ink sketches, crayon drawings, old newspapers, letters, cards, coins, medals, tokens, match covers, a collection of newspapers from every state in the Union.

Some idea of the hours of work spent in preparing the exhibit for public view can be gained when it is known that more than 1,000 thumbtacks were used in giving the articles proper display. This year glass-enclosed cases add to the attractiveness of the show.

Ralph Carhart, Marion attorney and member of the Hobby club, has been assisted in arranging for the display by Don D. Gram, Harold Alexander, Adam Smith, Miss Corbin, Miss Elizabeth Conley, Cecil Gabler, Gene Gunders, Earl N. Hale, general secretary of the Y. M. C. A., Clarence Hart, O. C. Lee, Earl Schwann and Dr. F. A. Stenzel.

WORK PROGRESSING ON ROAD PROJECTS

Three WPA Jobs Employ 81 Men in City and County.

Work is progressing satisfactorily on three county road projects now under way in the local WPA program. E. J. Walcott, WPA engineer here, reported today.

Work is being done on the Eppsville road south of the LaRue-Prospect road, on Merchants avenue outside the east city limits between state route No. 25 and Indiana avenue, and on the LaRue-Prospect road.

The projects employ 81 men—69 on the LaRue-Prospect road, 15 on the Eppsville road and six on Merchants avenue. Mr. Walcott was unable to say definitely how long the projects will run, although the Merchants avenue job, started about two weeks ago, is expected to be completed in another month. The mud road is being converted into a macadam roadway with stone bed. Ditches and berms also are being improved. Work on the Eppsville road consists of widening the embankment about one-quarter mile and widening the approach to the "twin bridges" over the Scioto. Eight miles of roadway west from Ray's Corners is being improved on the LaRue-Prospect project. Work consists of widening the road, improving ditches and widening bridges and berms.

DUCE PREPARED TO HOLD GAINS

Warns Europe Any Increase in Economic Sanctions Will Mean War.

By The Associated Press
PARIS, May 13 (Press)—Mussolini in an interview granted today in the newspaper, *Le Matin*, declared Italy is ready to throw its full force against any economic sanctions which might be imposed on Italy.

The Italian leader, adding to his warning of last September that military sanctions against Italy would mean a European war, asserted this now holds good for an increase in existing economic sanctions.

"The Italian people," he said, "are not only satisfied with their victory in Ethiopia and desire only peace, but are ready to defend their conquest of the African nation with all courage and all force."

Mussolini added, *Le Matin* said, "We realize there was a moment when the methods we used in Ethiopia to assure the necessary expansion of our people."

"But what have other countries done through the centuries? There never has been more than one way for a nation to impose itself and its will on backward peoples by force."

Concluded by American engineers, China's largest dyke, having a length of 416 feet, recently was opened at Kiangnan.

13 indicted: One lists income of \$200 a week as his share.

By The Associated Press

NEW YORK, May 13.—Special Police Prosecutor Thomas E. Dewey struck at Chicago slinkies today and for the first time indicted 13 persons as operators of a multi-million-dollar vice empire, with testimony that one of them collected \$200 a week as his share of profits.

Al Weiner, who presided gallantly at the outset of the trial, told the jury he paid the same weekly to "Little Al" Weinman, whom Dewey has labeled Lucario, a neighborhood boss.

Weiner is the son of Louis (Doc) Eged Louis Weiner, now serving a prison term for compulsory prostitution. He pleaded guilty to taking over houses of prostitution as father formerly operated.

Weiner introduced testimony of half a dozen women who told stories of how they were "booked" into the houses and how their earnings were distributed.

None of the women directly linked Lucario, but some of them named James Frederick, one of the men on trial, whom Dewey called the business manager for the ring.

Weiner said he collected 10 percent of the earnings of from 60 to 70 inmates weekly and each Monday night turned \$200 over to Weinman.

He said his father went to Florida in the spring of 1932 for a vacation and left him in charge of the business, introducing him to Weinman.

"He said I could call Jesse Jacobs (another defendant) in the event of any arrests," Weiner said.

Weiner named another defendant, David Benito, rated by Dewey as the principal speaker at a hearing of "bookers" in Jacobs' office.

"Little David" warned all of us bookies that we hadn't better hold back on any more percentages on houses and that the next case he heard of would rate a \$200 fine."

NOW EATS THINGS THAT USED TO DISAGREE WITH STOMACH

Prominent citizen took Vendol and says it has improved his digestion, ended gas and sour stomach, overcame constipation which stopped dizziness and made him feel better than in years.

THE LARGEST SELLING TONIC IN THIS STATE
"I had suffered from indigestion so long that I was ready to give up, but I began taking Vendol and truly I never had anything to do so much good," said Mr. Edgar J. Jones of 24 Edwards St., Marion.

"I love to eat vegetables and rich things but they disagreed with my stomach and made me feel bloated and full of gas. I'd sit up a hot, sour liquid and it felt like I had a lump in my throat which I couldn't get rid of."

"I was constipated all the time and often had attacks of dizziness. Little spots passed before my eyes there was a bad taste in my mouth and my tongue was coated. I'd awaken every morning feeling tired, sore in my muscles and joints and started to begin the day's work."

"Vendol and the little Vendol laxative tablets proved wonderful and now I eat things I couldn't touch before, but I haven't had a spell of gas, cramps or sour stomach lately. My bowels now act nicely every day and the dizziness has disappeared. I feel sound, arising with a refreshing feeling. Everyone says I look better and no money could buy me the improved feeling Vendol gave."

Vendol is made from juices extracted from roots and herbs, acts so quickly and pleasantly giving such splendid relief some people call it "the hero tonic."

VENDOL is sold by all leading druggists everywhere and is recommended here by Hengge Cooper.—Adv.

Italy's Ethiopian Conquest Completes Spread of European Control in Africa

By The Associated Press
Italian conquest of Ethiopia ends a lengthy chapter of African history which has seen the entire continent, with the exception of tiny Liberia, a republic fostered by the United States, pass into the control of European powers. The map above tells the story.

The Phoenicians founded Carthage about 600 B. C. and 200 years later Greece founded Cyrene. Three hundred years later, Alexander the Great marched to the Nile and left his name in a new city, Alexandria. Rome capped these European excursions into Africa by consolidating the northern part of the continent after the fall of Carthage in 146 B. C.

Arabs, in the seventh century, swept the Romans out of control. Nine hundred years later the Turks supplanted the Arabs, but land-hungry Europeans would not be denied. Vasco da Gama, the Portuguese, led the vanguard of European explorers and traders, when he sailed around southern Africa in 1488. He was followed closely by English, Spanish, Dutch, French and Danes.

Rival powers soon began seizing territory. European holdings at the outbreak of the World War ranked as follows: British, 3,534,000 square miles; France, 4,200,000; Belgium, 930,000; Portugal, 788,000; Italy, 850,000; Ethiopia (independent), 350,000; Spain, 140,000; Liberia (independent), 40,000.

The outbreak of the Ethiopian war found Africa divided as follows: Britain, 3,534,000 square miles; France, 4,200,000; Belgium, 930,000; Portugal, 788,000; Italy, 850,000; Ethiopia (independent), 350,000; Spain, 140,000; Liberia (independent), 40,000.

TOWNSEND BIG OREGON ISSUE

Unopposed Presidential Slate Puts Congressional Battle in Forefront.

By The Associated Press
PORTLAND, Ore., May 13.—Unopposed presidential slates left congressional nominees and the Townsend movement as the major issues in Oregon's primary election today.

A total of 575,182 persons—271,145 Republicans and 183,322 Democrats—were eligible to vote.

Sen. William E. Borah of Idaho and William Bennett of New York were alone in the Republican ballot for president and vice president and President Roosevelt and Vice President Garner occupied similar unopposed positions on the Democratic ticket.

Can Write in Name
Voters were privileged to write in other names. Ballots also were being cast for 10 national convention delegates from each major party.

Those chosen to be bound to use their "best efforts" to obtain nomination of presidential and vice presidential candidates given the majority vote but will have the privilege of switching to other candidates at the convention if such efforts appear fruitless.

Greatest interest was evinced in two campaigns in which incumbents were unable to participate directly.

Sen. Charles L. McNary, Republican floor leader who has been in Washington while friends managed his drive for re-nomination, is opposed by Sam Brown, farmer and former state senator and Theodore G. Nelson, Salem, former North Dakota politician. Brown and Nelson claim Townsend support.

Williams in Cleveland
Ralph Williams, Republican national committee chairman for more than 25 years and candidate for another term, has been in Cleveland as chairman of arrangements for the national convention. His opponents are Ben Durrie and Charles Palmer, a Townsendite.

Willie Mahoney, Klamath Falls mayor, and John A. Jeffrey, Portland attorney, both claiming Townsend votes, seek the Democratic nomination for United States senator.

Two women, Nancy Wood Honeyman and Louise Palmer Weber, sought the Democratic nomination for congress from the third (Portland) district.

Chaplin Again Is Great Artist in "Modern Times"

BY GEORGE H. McMURRAY
The first actor of our times is back.

The magic name, the funny little moustache, the unforgettable derby and cane, the buggy pantaloons—all flash across a brighter Palace theater screen as Charlie Chaplin's first picture in five years unfolds before audiences composed of oldsters who remember the little tramp as they remember their own youth and of a new generation sprung up which knows the master comedian scarcely at all. "Modern Times," which Chaplin wrote and directed and for which he composed the musical score, opened a three-day run yesterday. This reporter's humble voice is added to that of the critical gentry in New York and other cities in calling it the finest picture of 1936.

It has been five long years since Chaplin appeared before the moviegoing public in his memorable "City Lights." Five years is long time to remain away from the screen, but the little British Cockney can do it, and after it was over "Modern Times" completely justified Charlie Chaplin's contention that the true art of the films is pantomime.

I won't attempt to outline the story of "Modern Times" here. It impressed me as being a group of two-reel comedies well placed together. It is sufficient to say that Charlie has related his character to a flesh and blood world in which he rises from the role of the rather pathetic funny man to a genuine artist. The first two or three reels is a satirical commentary on the growing mechanized world. Succeeding reels place Chaplin in jail several times, give him varied jobs such as dock hand, night watchman in a department store, a second factory job and finally a position in a cafe as a singing waiter.

In the latter—the next to closing sequence—Charlie's voice is heard for the first time on the screen. The greatest pantomime singer is une in a garbled patois that accom-

Married Comrades

BY ADELE GARRISON

Madge informs Dicky of Marion's Sad Appeal.

DICKY COULD have chosen no better ruse for answering his signaled appeal to speak to him alone than the pretext of needing his help in checking the captions of his drawings. It is a task with which I often help him, and Harry and Lillian Underwood have heard his summons to me many times. "I'd love to help you," I said, rising quickly from my chair. "If you good people will excuse me," I added, smiling.

"We'll consider the matter," Harry Underwood said judiciously. "Of course, if the Dicky-bird wasn't the laziest loafer in seven counties, he'd attend to his captions himself, instead of putting his lady wife to work. But being what he is, I suppose she'll have to go."

"Thanks a lot," Dicky drawled, and then we were out in the hall and mounting the stairs to the second floor.

"I suppose to make it quick, we'd better go to my studio," Dicky said in an undertone, and I nodded, but spoke no word until we were safely inside his studio bedroom with the door locked and Dicky had drawn up chairs for us.

"Now what's troubling the alleged brain?" he asked.

"Plenty," I answered gloomily, and then I told him of Mrs. Ticer's call, and of her bringing me the appalling note which Marion had enclosed in a covering letter to my good neighbor.

"I don't like that," Dicky said, frowning, when I had finished a verbatim account of Marion's letter to me.

"Neither do I," I agreed quickly, "but I don't see what I can

do. I can't very well tell Lillian about the letter."

"Confess," Harry said.

"No, I don't suppose you can," Dicky said reluctantly, adding a bit vindictively, "But if it wasn't for hurting Lil, that's just what ought to be done."

"But we can't hurt Lil, you know," I argued, "so we'll have to decide something right away. I'll at least have to answer the child's letter."

"You've decided something, all right," Dicky said shrewdly, giving me a comradely grin. "And it isn't in the line of letter writing. I'd be willing to lay a nice little bet on that. Come down, what you're hatching."

"I'll confess," I said. "I want to go down to Whitney Hall and see Marion tomorrow."

"I thought that was the idea that was racing around the little brain," he said, "but how are you going to manage it? You shan't stir one step out of here unaccompanied. And how are you going to explain things so that Lil and Harry won't sniff two or three miles?"

"I've already laid the foundation with Lil," I confessed a bit shamefacedly. "When we finished decoding the letter from father's brother, and found out that he wouldn't be here until Friday night, I expressed my joy at the prospect, saying that there was some business in New York which needed my attention. And I haven't the slightest intention of going unaccompanied; that is, if my lawfully wedded husband will consent to drive me down to Whitney Hall."

"Your lawfully wedded husband ought to smack you down," Dicky retorted sardonically. "Then with one of his sudden changes of mood, he struck his knee with his fist and guffawed."

"You sure are the 'beatnest,'" he said, quoting Mrs. Ticer. "Make up your mind to do something, and then ask my advice on what to do, as if you were a totally bewildered child in doubt about whether the world is round or flat."

"Well, I ought to be familiar with the procedure. I've fallen for it often enough. And I'm game again. After all, Harry and Lil can carry on here. I'll go with you."

"You're a dear," I said warmly. "Thank you so much."

"You're welcome," he said with a grin. "But have you considered one thing? Your father is supposed to be critically ill. What will the neighbors think if you go away for the day?"

The Marry-Go-Round
BY HELEN ROWLAND

URGENT REMINDERS
In most of these spring romances, a man's interest in the game is far more intensive than his interest in the girl.

It's a wise girl who knows when to let a man go—and a wiser one who goes first and does not wait for the going to ring.

It's hard to convince an elderly Lothario that, next to conscience, nothing cools so quickly as a gold-digger's heart.

At this time of year, a man's love-making is not a personal thing. It is just the involuntary outpouring of an overworked heart—and the girl is the "innocent bystander."

Nothing looks quite so lovely in a man as his wife's fond smile after he has been snubbed, laughed at or double-crossed by another woman.

Love is the miracle that turns a girl's past into a shadow—and her future into a rainbow.

LET THERE BE LIGHT

Light bulbs are just one of the many products carried in LINCO stations for your convenience

IF THE LINCO man has you turn on the headlights of your car to see if both bulbs are functioning, it's not because he's trying to build up his income from sales of bulbs. They are priced at just a few cents each and the margin of profit is mighty small.

The LINCO man is concerned with your safety. He knows that it's dangerous to drive a "one-eyed" car. He may save you from an accident and serious injury. He may also save you the cost of several dozen bulbs, for driving with but one headlight is a serious violation of the law, punishable by fine. Light bulbs are little things, but they loom big in the dark. You can get them at any LINCO station.

Waldo Girl Scores High Grade in State Exams

Mary L. Augenstein of the Waldo school received the highest total score of Marion county pupils who competed in the recent statewide eighth grade tests, according to a tabulation of the grades which have been compiled in the office of D. T. Mills, county school superintendent. Her rank of 132, was within 16 points of the highest possible score of 148. The tests were given in four subjects, arithmetic, English, science and history, with 36 points for perfect scores in each subject.

She and nine other county pupils who scored 132 points or more will share in awards to be made by the state department when the high-scoring contestants meet Saturday at Central High school in Columbus.

The awards are to be presented to those who placed in the upper one per cent of the 21,255 state pupils who took the test.

County scores were substantially higher than the state averages, except Mills pointed out in reviewing the results of the examination. Only one per cent of the state group placed above the score of 140, while four per cent of the 21,255 county pupils exceeded the same mark, he said. A comparison of scores in the lower brackets reveals that the entire county group registered better percentages than the averages recorded in the state. One per cent of the entire state group did not exceed the mark of 126 points, while Marion county's lowest score was 11 points.

In the individual test the county group also compares favorably with the state average. In arithmetic county pupils average 33.6 points, while the state average was 29.9; county English grades average 26.1, as compared to the state average of 21.8; in science tests the county group scored an average grade of 21.8, and the state 21.7; history grades in the county averaged 26, and state scores 24.5. The county average for total scores of the tests was 119.8 points and the state was 102.7 points.

NOVEL SHOULDERS A CHIC HIGHLIGHT OF A CRISP, YOUNG SPORTS FROCK

Laced shoulders? Of course! And just Anne Adams to incorporate her latest word in smartness in her series of snappy sports frocks, which may be worn on many occasions throughout the summer. Of course, the effect is the rounded skirt, this line also followed out in the curved shoulder yoke, which continues right down the short sleeves. Plenty of bodice fullness, too, made by gathers of the fabric at the yoke, while the center of the skirt contributes its share to the graceful flare. This bright and refreshing model would be very good in any of the gay new cottons—try plaids, linen, crash, or rayon silk.

Pattern 2623 is available in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40. Size 16 takes 3 1/2 yards 36 inch fabric. Illustrated step-by-step sewing instructions included. Send fifteen cents (15c) in coin or stamps (coins preferred) for the Anne Adams pattern. Write plainly: name, address and style number.

BE SURE TO STATE SIZE. Order our New Anne Adams Pattern Book and learn how easily you can make a smart summer frock—that's just your style! The latest frocks, suits, blouses, beach and vacation clothes; bridal outfits. Lovely clothes for children.

143 SHIPWRECK VICTIMS SAVED

Rescued from Foundering Craft in Thick Fog Off Alaskan Coast

By The Associated Press
SEATTLE, May 15.—Rescued in fog so thick their lifeboats were hidden from each other, the 143 passengers and part of the crew of the foundering steamship North Sea were saved in a rescue operation that began in the fog and ended in the clear.

The steamship, which early this morning ran aground on March Point, Prince of Wales Island, floated free and then started sinking, reported herself lying in Rocky Sound, Alaska, last night.

The ship, which early this morning ran aground on March Point, Prince of Wales Island, floated free and then started sinking, reported herself lying in Rocky Sound, Alaska, last night.

Wireless dispatches from Ketchikan told of thick weather and said the little cutter was jammed with passengers and crew men to man the lifeboats was a "precautionary measure."

DOG TAG CAMPAIGN IS PROGRESSING HERE

Owners Correct Statements and Pay Additional Fee for Licenses.

The drive begun this month by County Dog Warden Elmer Elton and County Auditor Harry V. Mounts to collect money due the county from dog owners who made false statements, either intentionally or through lack of knowledge, when they obtained their 1935 dog tags is progressing satisfactorily, Auditor Mounts reported today.

About a half dozen dog owners have come voluntarily to the auditor's office and paid the amount owed. Mr. Mounts said, and one person was compelled to come in under threat of prosecution.

The occasion for the current drive is the discovery by Warden Elton that some dogs, whose owners declared they were spayed females when they took out new tags, have borne pups since. Tags for spayed females sell for \$1, while those for female dogs are \$3.

Owners who deliberately made a false statement or those who bought spayed tags and have discovered since that their dogs are not spayed are urged to report the error to the auditor and pay the additional \$2 fee. Owners might be liable to prosecution for swearing to false statements, Mr. Mounts has pointed out.

Most of those who have come in voluntarily since the beginning of the drive have indicated that they did not know their dogs were not spayed, the auditor said. One spayed, the auditor said, was requested to do so by the dog warden, but came in when Mr. Elton threatened to file an affidavit for his arrest.

A similar theft of license plates from a car belonging to Henry Morehead of 850 Main street, was also reported to police yesterday. The car was parked in a garage at the rear of 235 East Center street and the plates were taken between 7 a. m. and 4 p. m. yesterday, the report stated.

AUSTRIA FACES CIVIL CONFLICT

Spokesman for Ousted Prince Says Fight for Fascism Begins in Earnest.

By The Associated Press
VIENNA, May 15.—An open conflict between the government of Chancellor Kurt Schuschnigg and the Helmswehr, private army of Prince Ernst von Starhemberg, erupted suddenly as Austria's vice chancellor and "semidictator," was a possibility today.

"The fight to make Austria Fascist now begins in earnest," said a spokesman for von Starhemberg.

At the same time a more democratic trend, one away from fascism, was indicated by Schuschnigg's new government—a trend directly away from the Fascist Helmswehr principles.

A source close to the government said Chancellor Schuschnigg and Franz von Papen, German minister to Austria, discussed at length the possibilities of improving the embittered relations between Germany and Austria.

This source said one German condition for a rapprochement was the ousting of Starhemberg from the cabinet and that with his departure a major obstacle had been removed.

The Helmswehr spokesman said his organization would drive relentlessly toward its goal despite von Starhemberg's expulsion from the government.

"Within a few days the world will know what von Starhemberg meant when he said the Helmswehr, which twice saved the independence of Austria, will be shown of its influence only over his dead body," the spokesman added.

Reports from the provinces stated men everywhere are rallying behind von Starhemberg. On his return from Rome, he will be greeted by a reconstructed Helmswehr, waiting his commands.

Miss Laura Bowen of 141 South Vine street who perhaps was Marion's first woman to start a life career in the field of business was honored last night by a dinner given by the Huber Mfg. Co. to commemorate her recent completion of 50 years of service to that company.

The dinner given in Hotel Harding, was attended by 45 company officials and employees and their wives.

Miss Bowen, who was cashier and assistant secretary of the company at the time of her retirement last March after rounding out her fiftieth year of service, joined company officials in reminiscing about the early days of the Huber Co. which formerly was located where the Houghton Sulky Co. now stands on North State street.
